Parkside Plaza Hotel

Project – Website – Admin Panel – Mobile App

- **Website Edits:**

. Use same design of the current template : Home page style 2, Rooms 4, about us and contact us same template design.

. Add pages : Spa, Events, meeting Hall (same restaurant page presenting the meeting hall in website but it will includes at the top and at the end of page add a bottom names Request when customers click they will fill a form and get thank you page), add page names DOWNLOAD APP (presenting the app and download icons for apple and android).

. Change the website brand identity to the Hotel brand identity : logo, color palette (keep the gold color that using in the website template) and any details contains the template name to hotel name.

. Make the header menu a little bit curved and change the color from white to another color matches

. Restaurant page will be same the template (without ordering feature).

. Delete from header : Share icon, wishlist icon, search room bottom.

. Add to Header: login Bottom same design of search bottom (For customers) + the sign up.

. Change the map that's showing in the background in the website template and put Muscat, Oman map like in he template.

. Let's navigate the logo to homepage, subscribe at the at the end of the page working with hotel email.

. At the end of each page (©Diamant 2024. All Rights reserved) change it to (Parkside Plaza Hotel . All Rights Reserved) and Add to it (Developed & Managed by DevoPulse) let's if anyone click on DevoPulse take them to my agency website (www.devopulse.com)let DevoPulse be in the gold color that using in website. Make same in app.

.Spa and all services will be working same app, check how its working .

. Add Rooms the hotel have : from their profile https://www.booking.com/Share-u6hLQb2

.**Meeting Hall (Web And App):** Users see the venue details and a "Book" button at the bottom. Click "Book": This opens a booking form. Fill in the Form: Users provide: • First Name • Last Name • Company Name • Email • Phone Number • Preferred Date & Time • Event Description (Enquiry) Submit the Form: After submitting, users are shown a page " at the top: Thank You for your Interest! Under it : Our Team will contact you as soon as possible!. Follow-Up: The staff or admin will contact the user to confirm the booking and discuss details.

Note: The website will not includes loyalty program for now , we can manage it later from page **Platform Visibility in admin panel**

-

- **Mobile app Ios & Android**: .Delete heart Icon (whishlist).
  . Put the right icon for each page in the add.

  .Correct colors as the color palette, and if any big shape not looks good.
  .Events page: remove select date and let it shows only the events will be added from admin panel .
  .Add intro before shows login page (Let the intro be same Marriott app)
  . Let the advertising billboard at the homepage can managed from admin panel.
  .Change the background (These shows like red points) to a luxury background

- **Color Palette:**
  Dark Red / Maroon - Hex: #6A1B1A RGB: 106, 27, 26
  Gold / Mustard Yellow - Hex: #D4A323 RGB: 212, 163, 35 (same gold using in website template)
  Beige
  White
